## RAPT custom acoustic wall paneling

Lead time: 3-5 weeks

Origin: panel manufactured in China, NSW design, processing, and installation

Fire Rating: AS 5637.1:2015 group 1

RAPT is a fully bespoke wall treatment solution, which aids sound travel restriction, where visual impact is achieved by using natural texture of PET panel, as well as groove pattern and both subtle and vivid colours available within acoustic panel range.

RAPT is a pinnable 12mm post-consumer PET fibre panel, that is cut to shapes using precision CNC technology.

*Flame Retardant: EN 13501*

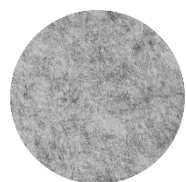

*Acoustics: EN ISO 354:2003*

*Weight Range: 1300g/m<sup>2</sup>-3500g/m<sup>2</sup>*

*Eco-friendly: AS/NZS 4266 recycled PET staple fibre with no chemical irritants free of harmful substances*
